2O YEARS OF PROVEN CYBERSECURITY

How SYNAQ's privacy first approach protected our clients this year.

In a year filled with challenges and opportunities, SYNAQ has emerged stronger, more resilient, and more focused than ever. Join us as we recap numbers of 2023, a year where we went from **secure to securer,** setting new standards in the industry and paving the way for a safer, more secure digital future.

Cutting corners in your email security is like leaving your car unlocked with the key in the ignition. Speak to us to find out how we can help protect your email from breaches with more intelligent email security that works.

We processed just under
1.4 Billion client emails

We delivered more than
1.2 Billion clean emails

We quarantined and rejected more than
200 Million email threats

We achieved an average processing latency of less than
12 seconds

We quarantined and rejected just under
800 000 email threats

SYNAQ BE EMPOWERED.
