

Trainiac

CASE STUDY

About Trainiac

Trainiac has led the way in picture-based learning since 2001. As they grew, their on-premise setup struggled to keep pace.

The Challenge

Trainiac's IT setup demanded high maintenance, detracting from their productivity and hindering multi-device use.

The Solution

SYNAQ's CloudMail, with Zimbra's capabilities, provided a seamless transition with cost savings, mobile access, and 99.9% uptime.

The Outcome

SYNAQ has transformed Trainiac's operations, providing a flexible, reliable solution that lets their team stay connected across devices. The team is now free to focus on delivering top-notch training products.
