

About CNM IT Solutions

CASE STUDY

About CNM IT Solutions

In 2004, CNM IT began as a small IT provider in KwaZulu-Natal, driven by a passion to bring innovative technology to local businesses. Now a trusted name across sectors, they've grown while never losing sight of their roots in client-centred service.

The Challenge

CNM IT was ready to step up its game but found most offerings in the email security market fell short. They needed a dependable partner who could offer world-class tools and support without the international price tag.

The Solution

SYNAQ's solutions were a perfect fit, offering SecureMail and CloudMail Premium with unbeatable local support and competitive partner terms. This partnership allowed CNM IT to seamlessly transition their clients, gaining a strong advantage in a crowded field.

The Outcome

With SYNAQ, CNM IT didn't just find a provider—they found a true partner who cared about their success. Their clients now enjoy superior email management, while CNM IT values SYNAQ's consistent support, which strengthens local IT providers like themselves.
