

Marketing2the Max

CASE STUDY

About Marketing2theMax

Marketing2theMax empowers brands through innovative marketing strategies and has been trusted by clients for over a decade.

The Challenge

A security scare involving a malicious invoice prompted the agency to seek a solution to safeguard its expanding digital operations, especially with the shift to remote work.

The Solution

SYNAQ's SecureMail Premium provided comprehensive security tools, including Identity Threat Protection, Data Leak Prevention, and LinkShield, plus an integrated branding feature.

The Outcome

Since implementing SecureMail, Marketing2theMax has had zero security issues. Their accounts team now operates with confidence, enjoying a secure, user-friendly platform at an affordable price.
