

ARCHIVING

Experience SYNAQ Archive, the ultimate solution for tamper-proof, unlimited email storage. With a robust cloud service that integrates seamlessly across all major email platforms - including Exchange - your business gains exceptional search and retrieval capabilities that deliver lightning-fast results. Supported 24/7 by our dedicated local engineers, you can enjoy the peace of mind that comes with a compliant and secure email archive.

END-USER BENEFITS

- **Advanced Discovery:** Effortlessly search within various attachment types, including Word, PowerPoint, RTF, PDF, and ZIP files.
- **Lightning-Fast Retrieval:** Get instant results with our exceptionally fast search capabilities.
- **User-Friendly Interface:** Navigate our easy-to-use web interface for quick email searches, allowing you to view, print, or restore emails with ease.
- **Compliance:** POPIA & GDPR Compliant (E-Discovery & Legal Hold).
- **The 10-Year Retention Period** feature provides secure, long-term storage for all archived emails with the added benefit of unlimited storage capacity.

ADMINISTRATOR BENEFITS

- **Total Control:** Maintain complete oversight of all communications for record retention, regulatory compliance, disaster recovery, and litigation.
- **Seamless Data Migration:** Enjoy painless data ingestion from existing email servers, such as Exchange and desktop clients (including Outlook).
- **Broad Compatibility:** Support for a wide range of email systems, including Microsoft Exchange (2003/2007/2010/2013), Lotus Notes, Zimbra, and more.
- **Robust Security:** Archived emails are securely encrypted with triple DES and stored in isolated application instances for maximum protection.
- **Unlimited Storage:** Safeguard all business-critical emails with our tamper-proof archive and guaranteed retention periods.
- **Comprehensive Audit Trails:** Track all system activities with a complete audit trail to ensure accountability.

FINANCIAL BENEFITS

- **Scalable Solution:** Easily grow your email archiving capabilities alongside your evolving business needs - without additional costs.
- **Pay-As-You-Grow:** Eliminate the burden of hardware or software licenses - only pay for what you actually use.
